

NOTES:

1. Galvanize rail assembly after fabrication.
2. Posts shall be normal to railing.
3. Tube splices shall be located in the tubes spanning deck or wall joints. Increase joint width in tubes to match expansion joint width and increase sleeve length accordingly.
4. Top rail tube shall be continuous over not less than two posts except a short length is permitted near deck or wall joints, electroliners, or other rail discontinuities.
5. See project plans for limits of Tubular Hand railing.
6. 3/8" nut tack welded to sleeve may be replaced by drilled and tapped hole in sleeve.
